Bringing Prevention Front and Center in Health:

Building the Bridges Between Community Health and Health Care Systems

Sarah Potter

Sarah Potter is the President of Creative Alliance, a consulting group that serves government agencies, non-profits and universities in organizational advancement and strategic initiatives. Her areas of expertise include behavioral health promotion, substance use disorders and justice systems. Her history of service includes executive leadership in state systems and service provider organizations in Illinois, California, and most recently, North Carolina.

Sarah's career reflects an ongoing commitment to helping people live healthy and productive lives. She has specialized experience in developing, implementing, evaluating and improving human service and health programs, and in developing statewide strategies to build public support for better drug policy.

MARCH 27, 2015
9:00 A.M. - 4:30 P.M.

Luis Marcano Training Center
100 South Turnpike Road Wallingford, CT 06492
203.284.8800 203.284.9500 (fax)

With the changing face of health care, the prevention field has exciting and challenging opportunities to align prevention efforts with overall health. This training is designed to expand the skills of prevention professionals in strengthening and expanding the role of prevention across health disciplines and to build the bridges between physical illness and behavioral health challenges.

Topics include:

- ◇ Clear links between prevention to the overall wellness of communities and healthcare integration efforts.
- ◇ The role of substance abuse prevention providers in systematic coordination of general and behavioral healthcare.
- ◇ Concrete approaches and tools to build collaborative relationships across organizational boundaries and functional silos.
- ◇ Matching prevention approaches and goals with the business needs of the health care system.

To register, please contact the Connecticut Certification Board at

BACK BY POPULAR DEMAND!
THE CONNECTICUT CERTIFICATION BOARD PRESENTS:

Alternative Medicine and Substance Use Disorders

Jaquel Patterson ND, MBA

Dr. Patterson is a licensed naturopathic physician. Her areas of focus include autoimmune and inflammatory conditions and pain management. She has maintained a private practice over the past five years and has a breadth of experience in public health and disease management. She combines both her clinical and business knowledge and has worked in a leadership capacity within community health. She also acts as an adjunct faculty member at University of Bridgeport's College of Naturopathic Medicine. Dr. Patterson has served on many boards including Sickle Cell Disease Association of America, NAACP Health Chair for Bridgeport, CT and is currently a Board Director for the American Association of Naturopathic Physicians, Academic Consortium for Complementary and Alternative Health and is a Connecticut Health Foundation Health Leadership Fellow. Dr. Patterson's work has been featured and published both locally and nationally. She currently is Vice President of Operations and Compliance Officer at Community Health Resources, Inc. in Windsor, Connecticut.

May 18, 2015
9:00 A.M. - 4:30 P.M.

CAM (Complimentary Alternative Medicine) is increasingly popular in the western world for the treatment of a variety of disorders. It has been utilized by many persons of all cultures and ethnicities across the world, and it is also heavily culturally influenced.

Topics include:

- ◇ Physiological effects of addictive disorders
- ◇ Nutritional and physical deficiencies related to addictive disorders
- ◇ Dietary considerations and recommendations
- ◇ Nutritional and herbal supplementation
- ◇ Review and discussion of alternative modalities including acupuncture, chiropractic and meditation
- ◇ Lifestyle and exercise considerations
- ◇ Spirituality
