

IC&RC Exam Passing Rates

The Connecticut Certification Board is proud to announce that our credentialing candidates have passed their respective IC&RC credentialing exams at a rate of 92%, well over the national average of between 70-75%. We are excited to continue to be one of the best performing boards under IC&RC umbrella. Soon we will launch an exam preparation workshop, with hopes of showing even more positive results. Thanks to all of our professionals for the hand you play in our overall success!
