

AADC Grandparenting Update – One Month Remains

To date, nearly 100 professionals have upgraded their CAC to the more fitting Advanced Alcohol & Drug Counselor credential, and we have been able to offer the grandparenting to professionals who work with SUD and COD clients and hold the LCSW, LPC and LMFT without any previous CCB certification. If you are a master's level clinician and have not completed the grandparenting process yet, you have one month to do so without being required to take the examination. More information and the application materials can be found [HERE](#). Don't delay!
