

We Are Moving!

During the month of November, the CCB will be relocating our offices and testing center to the neighboring city of Meriden. We will occupy about 1500 square feet of space on the second floor of a 31,000 square foot building located at 55 West Main Street. Renovation on the space is beginning as we speak, which will provide the best of both worlds – bright and functional space in a 135 year old building. We are planning the move in such a way to provide the least possible interruption in our services, and we look to be fully moved for December 1st. You can read more about this, and other news, in the latest edition of the CCB Newsletter.
